Introduction

China is becoming an increasingly important stakeholder in philanthropy in education. This event will target foundations, non-profit educational organisations, academia, business, social enterprises, media and government to discuss the theme of education equity and innovation in childhood education in China. The event will bring together around 80 participants, and high-level speakers presenting a combination of domestic and international experiences and case studies.

The event is organised by China Global Philanthropy Institute in collaboration with NORRAG and 21st Century Education Research Institute, with sponsorship from the Laoniui Brother & Sister Foundation.

Objectives and expected outcomes

This event will bring together partners and different stakeholders to establish a network that can mobilize resources, promote cooperation, stimulate institutional exchange and facilitate the sustainable development of philanthropy in education in the domain of childhood education.

At the event the preliminary report *Childhood Education and Philanthropy in Education* will be presented, which aims to promote the understanding of current state of children education in China through sharing international and domestic experiences and case studies.
