PSYCHOSOCIAL SUPPORT
TO CHILDREN AND ADOLESCENCE
IN EDUCATION PROJECTS:
Good practices and challenges

30 June 2022 · 3:00pm to 5:00pm CET · Online
Interactive webinar
In English & Spanish with simultaneous interpretation

SIGN UP!
Children and adolescents in permanent crisis situations are limited in their ability to learn and freely develop their skills. By receiving psychosocial support (PSS), they are able to reduce their stress levels and achieve better results in school and vocational training.

After a short presentation by Vivamos Mejor and its partner Apoyar on their experience with PSS in education projects in Colombia, you will be invited to exchange and reflect with your peers on this topic, taking into account your own experiences and projects.
